## SUMMARY

---

WordPress PHP developer with 5 years of experience specializing in custom theme and plugin development for high-performance websites and global clients. I turn business needs into fast, reliable WordPress products: custom PHP builds, WooCommerce stores, and automation that removes manual work and grows conversions.

## PROFESSIONAL EXPERIENCE

---

**Website & Workflow Automation Specialist, K21 Academy** Jan 2025 - Jun 2025

- Rebuilt and optimized the company WordPress site in PHP, cutting page-load time by approximately 45% and lifting lead conversions by 20%.
- Automated 15+ recurring workflows with Zapier, saving the team an estimated 10+ hours of manual work per week.
- Engineered marketing funnels and lead-management systems across CRM and email platforms, growing captured leads by 30%.
- Resolved 20+ performance bottlenecks and plugin conflicts, keeping site uptime above 99%.

**Development Team Lead, Appmoc** May 2022 - Dec 2024

- Developed 10+ custom WordPress themes and plugins in PHP for client-specific features and layouts.
- Led development and maintenance of 25+ WordPress sites for global clients.
- Automated client operations with Zapier, Make, and Vapi, reducing repetitive manual tasks by approximately 30%.
- Directed a 4-developer team, managing timelines and task allocation to deliver 95% of projects on schedule.

**Senior Web Developer, Stay Bright Design Pvt. Ltd.** Feb 2021 - Oct 2021

- Built 15+ responsive WordPress and WooCommerce stores for international clients.
- Customized PHP themes and templates to client branding, cutting design-turnaround time by 25%.
- Grew organic traffic up to 40% with on-page SEO, including keyword optimization and metadata improvements.

## PROJECTS

---

**Daata - Hyperlocal Marketplace App (React Native, Expo, Supabase)** - A hyperlocal marketplace for giving away and finding free items nearby, with offline sync, real-time chat, location-based browsing, push notifications, and 7 languages. Published on the Google Play Store.

**Fitluma - Fitness App (React Native, Expo)** - A fitness-tracking app I built and published to the Google Play Store.

**Custom WordPress Theme (PHP)** - Custom WordPress theme built in PHP to add site features for a client project. Live: brahamaj.in

**E-Commerce Websites (WooCommerce)** - WooCommerce online stores optimized for performance, checkout flow, and SEO. Live: rangchitra.com and goldplyte.com
